Who we are

As a family-run business with over 40 years of expertise, we are dedicated to providing bespoke stone solutions for a diverse range of applications from exterior cladding to high-end interiors.

From initial design through to manufacture and installation, we manage every step to ensure a seamless experience with quick turnaround times and a swift response to site requirements.

At our UK factory we specialise in manufacturing lightweight stone composite technology, alongside precision cutting and fabrication of bespoke natural stone, porcelain and lightweight stone creations.

Who we work with

Your choice of stone

We manufacture traditional solid stone, man-made porcelain, or our innovative lightweight composite stone veneer panels for use in bespoke stone furniture.

Each material offers distinct advantages, and our expert team will guide you in selecting the ideal option to realise your design vision.

For example, for a larger piece—such as a custom dining table—our lightweight panels offer easier handling and installation while retaining the luxurious aesthetic of solid stone.

We hold a selection of natural stone materials at our Southampton factory and work closely with our trusted international suppliers to source specific stone for individual projects.

Whether you're seeking a one-of-a-kind statement piece or ongoing production batches, we manufacture a wide range of bespoke stone components for furniture to complement any interior.

Examples of our work include dining table tops, coffee and side tables, vanity tops, shelving, desks, fireplace surrounds and outdoor benches and seating — all crafted with exceptional precision and attention to detail. Each piece is made to order, offering complete flexibility in size, form and finish.

Dark Emperor Solid Stone - Side Table Tops

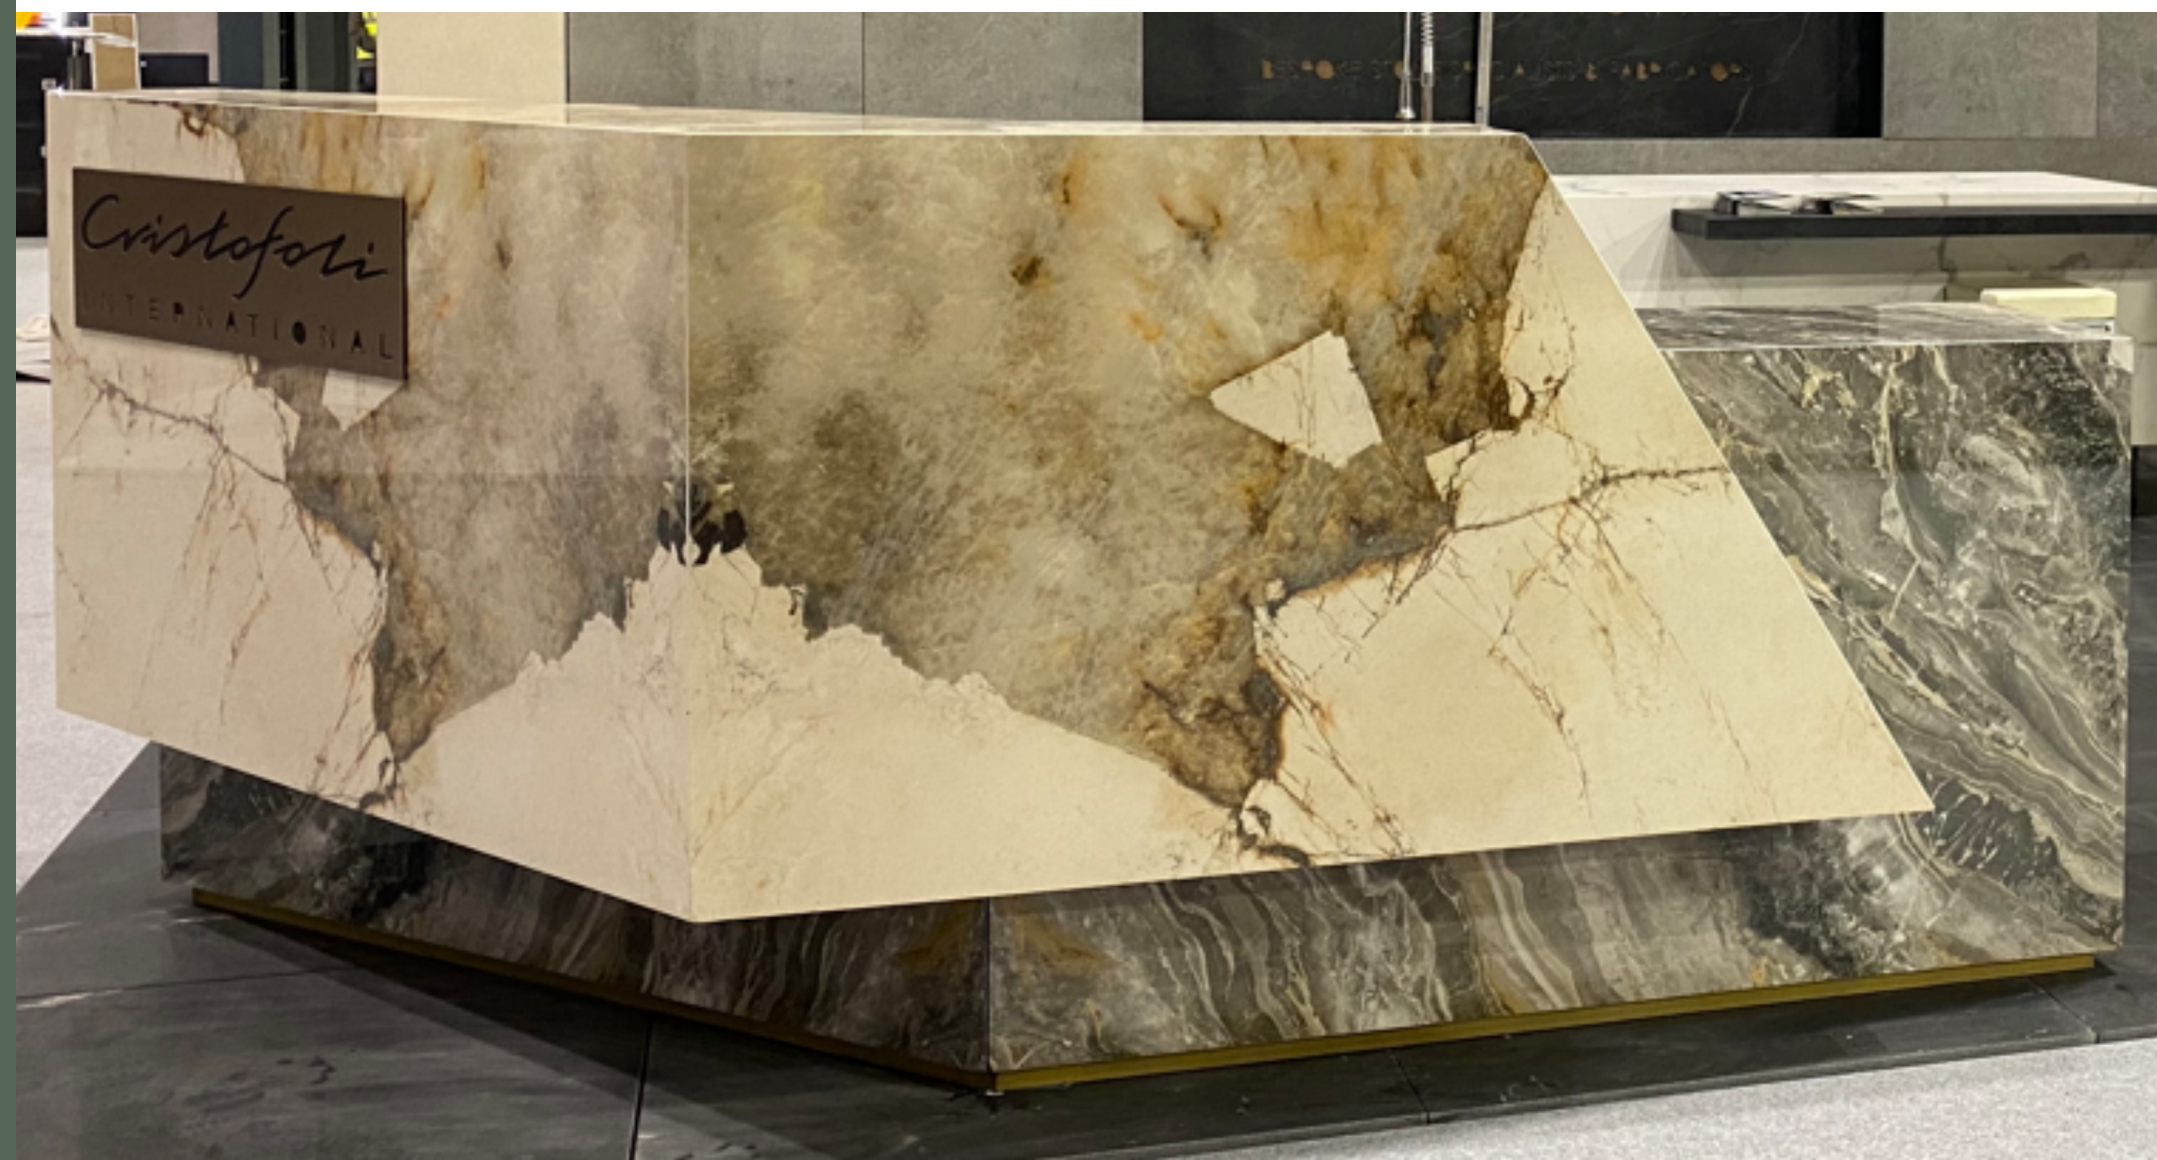

Bespoke Fabrications

We work closely with furniture designers, shop-fitters, showrooms and other professionals within the luxury interiors industry to create pieces that meet the highest standards of design and functionality.

We love a technical design challenge so whether you're furnishing a luxury retail space, designing an upscale restaurant, or enhancing a private residence, our in-house design team work directly with you to ensure your vision is brought to life.
